PROFILE

During my educational journey at Kirirom Institute of Technology (KIT), I discovered my true passions and refined both my technical skills and soft skills. This phase was crucial in enhancing my ability to address complex challenges with efficiency. As my academic path towards the professional world draws to a close, I am enthusiastic about leveraging my acquired skills in a setting that not only values but also fosters growth and innovation. I am committed to contributing to such environments by embracing challenges and driving forward with inventive solutions. My aim is to not just adapt but to thrive, continuously expanding my capabilities and making meaningful contributions.

WORK EXPERIENCE

KIT Point Management System

INTERNSHIP | KAMPONG SPEU, CAMBODIA

2023 - PRESENT

- KPMS is an internship reporting system designed for students to log their hours, track their performance, and access internship information, while enabling administrators to monitor student activities during their internships.
- I've developed several features for KPMS and am currently in the process of migrating the system to a new technology to enhance its functionality and performance.
- **Technology use** such as (Vue Js, Nuxt Js, Tailwind, Vuetify, Vuex).

Shuttle Bus

INTERNSHIP | KAMPONG SPEU, CAMBODIA

2023 - PRESENT

- Shuttle Bus is designed to simplify transportation for students and staff, offering a booking system for shuttle services between locations, alongside administrative tools for efficient transportation schedule management.
